

WestSide Baby's Mission

WestSide Baby, in partnership with our community, provides essential items to local children in need by collecting and distributing diapers, clothing, and equipment. Diaper-need has been called “the silent crisis of the pandemic.” Even before the COVID-19 health crisis, one in four King County families were struggling to afford diapers and car seats for their children.

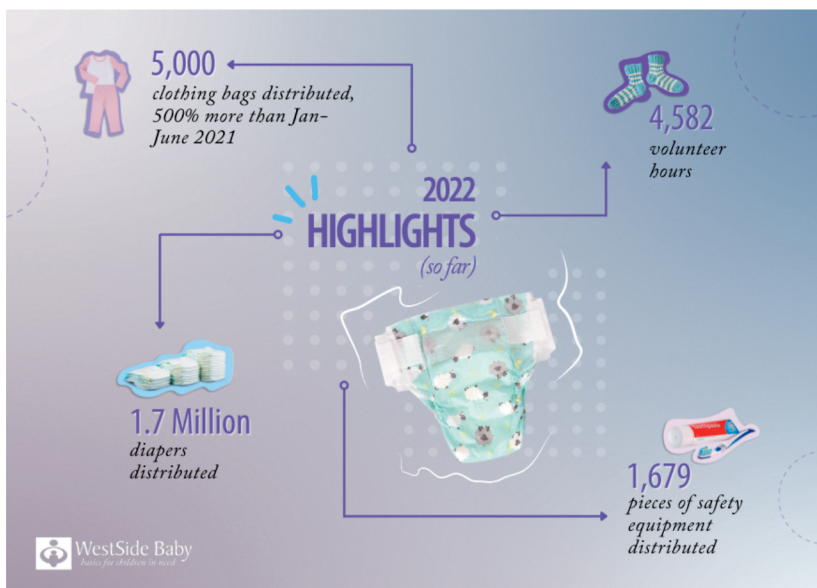

WestSide Baby's Vision

WestSide Baby envisions a day when each child is equipped with the basic items they need to grow into healthy, happy, and resilient members of our community.

How We Operate

WestSide Baby is the only organization in western King County focused on the large-scale distribution of diapers and other pre-owned children’s goods at no cost. We operate one of the largest diaper banks in the nation. WestSide Baby fills a unique role in the non-profit children’s services sector by functioning as a “resource-broker” for new and gently used children’s goods.

We procure, inspect and store the material basics parents need to care for their children. Our goods are distributed by social workers and human service professionals who place orders for the items their clients need immediately, and personally deliver them.

JOY is essential.

In just the next 6 weeks WestSide Baby, with the help of our partner agencies, will distribute over 650,000 diapers and 600 clothes bags to children in our community. WestSide Baby believes that JOY is essential and that every child needs and deserves to experience laughter, connection and warmth.

Will you help us create more essential JOY this season?
